Kids Art- "Holi" & "Doodly-Doos"

Join us at the Scripps Ranch Library as we celebrate the Indian Festival of "Holi", with a "Marbled Chalk Craft." And don't forget to join us for our monthly program "Doodly-Doos!" Kids have the opportunity to explore their creative sides, and create their own theme inspired art. All supplies provided. Open to kids of all ages.

Maximizing your Social Security

This is a free educational workshop focused on Social Security. Open to all members of the community and designed to help individuals and couples better understand strategies and tactics to maximize their benefits. The session is a one-hour class focused on providing clarity around Social Security, walking through hypothetical examples of how benefits are calculated, and helping individuals determine the best time to begin collecting their benefits. Space is limited.

Around the World in Storytime!

Bilingual Storytime – Saturdays
(Except the First Saturday of the Month)

Join us every Saturday for a fun and engaging Bilingual Storytime at the library! Each week features a different language, giving children and families the opportunity to experience stories, songs, and activities from around the world. Current language pairings include English/Spanish and English/Arabic, with more languages coming soon!

Spring into STEAM

Join us March through May for our exciting Spring into STEAM series! Designed for tweens and teens, this multi-week lineup features hands-on workshops that make science, technology, engineering, art, and math fun and approachable. Students can twist and solve in Qube Quest, design and engineer in RoboReady, build creative projects in Build Lab, code their own games in Code Creators, and experiment like real scientists in ChemLab Explorers and more. So many programs to choose from!

Into the Microverse

Join us at the Library as we investigate the living organisms in the Scripps Miramar Ranch Library "Duck Pond." We will gather fresh water samples and investigate the samples under our microscopes. Program leader Terence Au will guide us and discuss the organisms we find. Space is limited, limited numbers of microscopes available. Registration opens 3/2/26.

RoboReady

Step into the exciting world of engineering and robotics in this hands-on Intro to Robotics workshop! Participants will explore computer-aided design (CAD), learn the fundamentals of 3D modeling, and discover how real-world engineers bring ideas to life. By the end of the program, students will walk away with practical design skills and their very own 3D projects to showcase their creativity and innovation.
*Registration Required

Qube Quest-Rubik's Cube

Join us at the Library for an exciting student-led STEAM series that brings problem-solving and critical thinking to life through the Rubik's Cube and other strategic games. Designed especially for elementary-aged students, this engaging program makes big challenges feel approachable, achievable, and most importantly, fun! this program shows kids that mastering the Rubik's Cube isn't about being "super smart", it's about perseverance, strategy, and practice.

César Chávez Day

The Library will be closed in observance of César Chávez Day on Tuesday March 31. This day honors the life and legacy of Cesar Chavez, a civil rights and labor movement leader who dedicated his life to advocating for farm workers' rights, equality, and social justice. We invite our community to reflect on his enduring impact and commitment to service. The Library will resume regular hours the following day.
